

The changing landscape of dentistry

Discussions are taking place about what the post-COVID-19 dental landscape should look like. We asked clients, partners and key opinion leaders on what's important to patients, solo dentists and group practice/DSO owners.

For patients

- Better protocols for safety
- Better visibility on coverage
- Better education on services
- Better convenience

For solo dentists

- Better cash flow
- Better staff relationships
- Lesser overheads
- More new patients

For groups and DSO's

- Frictionless billing
- More new patients
- Better patient experience
- Staff efficiency
